WRITTEN ANSWERS TO STARRED QUESTIONS

Adverse Impact of Import of agricultural products

*461. SHRI THANGATAMILSELVAN: Will the Minister of COMMERCE AND INDUSTRY be pleased to state:

(a) the details of the agricultural products imported during the last three years;

(b) whether Government have conducted any survey to assess the adverse impact of such imports on the domestic growers/producers;

(c) whether it is a fact that this import is driving farmers to commit suicide in various parts of the country; and

(d) if.so, the steps taken by Government to protect Indian farmers?

THE "MINISTER OF COMMERCE AND INDUSTRY (SHRI KAMAL NATH): (a) The data on total imports and the imports of agriculture products during-each of the last three years is as under:

	2003-04 (Rs in crores)	2004-05 (Rs in crores)	2005-06 (April-Sept.) (Rs. In crores)
1. Total Imports	359107.6	490531.7	286358.8
2 Import of Agriculture Product {% growth over previous year)	18825.9 (17.2%)	20185 8 (7.2%)	10383.9
3. Import of Agricultural Products excluding Edible oil {% share of total imports)	6957.3 (1.9%)	9261.9 (1.9%)	5662.8 (2.0%)

Share of Agriculture imports out of total imports is 5% in 2003-2004, 4% in 2004-05 and 4% in 2005-06 (April—Sept.). Of these imports, major share is that of edible oils.

The commodity wise import figures are enclosed as statement, *(See* below).

(b) There has been no comprehensive study on the impact of liberalised imports of agricultural products on indian Agriculture. Recently the Government has brought out a study entitled 'State of the Indian Farmer: A Millennium Study', as a part of which "Globalisation and Agricultural Liberalisation in India" has also been studied. Based on various measures of import and export competitiveness, the study concludes that most of the important agricultural commodities in India are competitive and that India can withstand competition from abroad with respect of most of the crops.

(c) and (d) To ensure that the farmers of the country are not put to any hardship, the Government has put in place a mechanism for monitoring

the import of sensitive items and undertakes suitable measures including tariff revision. Import duties on a number of items including edible oils (both crude and refined), tea, coffee, copra and coconut, wheat, rice, maize, edible oils, pulses, spices, arecanut and apple have been increased in the last 5 years, wherever necessary. Further, the Government is also implementing a number of development programmes to increase the competitiveness of the Indian farmer. These include introduction of improved farming technology, improved availability of inputs including water, credit and fertilizer and price support through the Minimum Support Price (MSP) Scheme and Market Intervention Scheme (MIS).
